

Emids

Case Study

Discover how Smartsheet helped the largest leading provider of digital transformation solutions to the healthcare industry deliver better care.

The largest leading provider of digital transformation solutions to healthcare is a digital transformation leader, delivering business and tech solutions that help payers, providers and tech-enablers maximize technology to deliver care better.

As a global partner headquartered, it helps to bridge the critical gaps in accessible, affordable, high-quality healthcare by providing advisory consulting services, custom application development, and data solutions. Services include EHR application deployment and management, analytics, data integration and governance, software development and testing, and business intelligence.

Customer: Emids

Emids is devoted to helping healthcare and life sciences companies.

Use Case: Project management

Industry: IT Services and IT Consulting

Organization Size: 2k +employees

Region: Franklin, TN

Challenge faced by company

1. Task tracking
2. The Integration process takes longer than expected
3. Inadequate Planning.
4. Tracking day to day activity.

Solution:

1. Smartsheet helps you to plan and schedule the task, helps you to standardize key project elements, increase velocity, and improve collaboration with scalable options that fit individual work preferences.
2. Also, Smartsheet helps with task tracking to improve visibility into team priorities and ensure nothing slips through the cracks.

Benefits To Emids:

1. Real-time visibility.
2. Automate workflows and repetitive tasks.
3. Prompting team to make updates, and getting reminders when tasks and projects are due.
4. No complex formulas and working on a single line of code.

Results:

1. Now the team can work on the same project at once.
2. Improved the efficiency

Smartsheet collects consistent data, automates approval processes, and transforms data into action. Since it is a no-code environment, it doesn't require coding, any user can create, modify, and maintain these prompts quickly and effectively.
